Thank you **Jaymie Scotto Cutaia** and **Barb Mitchell** for the air time. It was amazing to spend 2 days together and with the distinguished **#digital #infrastructure #community** in Antibes. We discuss at 2 hours and 7 minutes into the recording how I got into TMT in 2008, my 'Lets talk **#tech** ' product for general tech literacy, the role of **#inclusion** in improving output and outcome, collective **#learning** ie a **#growth** not a zero mindset, and of course **#trends** !  
Looking forward to develop collaborations and to meet again.  
Wishing all a fabulous Q4.
